

THUNDERSTORMS

- Stay inside a building or a hard-top vehicle.
- Avoid showering, bathing, and using the phone that has a cord except in an emergency.
- Unplug appliances and computers.
- If outside, never stand under a tall tree in an open area. Go to a low place such as a valley or ravine- but beware of flash floods.

FLOODING

- Learn flood evacuation routes and where to find high ground
- Avoid streams, marshes and other low-lying areas that are prone to sudden flooding.
- Never walk through moving water more than six inches deep.
- Do not drive into flooded areas.

HURRICANES

- Plan a flood-free evacuation route.
- Clear your yard of all loose objects.
- Shutter, board or tape windows.
- If instructed by authorities, turn off utilities at the main valves or switches.
- If not required to evacuate, stay indoors in a central room, closet or hallway on the first floor.

TORNADOES

- If inside, go to the designated storm shelter or central room or area on the lowest level of the building.
- If in a vehicle, mobile home or trailer, get out and seek shelter in the storm shelter or the lowest level of a sturdy building
- If out in the open, lie flat in a ditch or depression and cover our head with your hands.
